

BOD Report May 2018

Transportation

- The new bus driver started in Hollidaysburg and is doing a fine job
- The new Thomas bus is in service and being utilized in the Tyrone area
- The transportation department counted the number of wasted trips (trips made to locations for pick up and no one was there, and no notification that they were canceled). We did the count for seven months Oct. thru April and the count of wasted trips was 4088, this is definitely a concern that needs addressed.

Facilities Report (May 2018)

- The landscaping and fencing is complete at Evergreen just waiting for the new playground equipment to be installed then project will be complete
- The cement work on the rear sidewalk is complete at Greenwood the final step will be to have the fencing installed
- The playground renovation at Greenwood is still under construction, we removed five truck loads of mulch and donated it to Hope Community playground, and this will help lower the cost of the mulch removal.
- We interviewed for the Facilities Maintenance Assistant position that was vacant and offered the position to Kyle Mock and he accepted and will start May 14, 2018
- We are receiving quotes for cement work to be done on the Greenwood front entrance steps and a section of sidewalk leading to the student entrance also to repair a section of wall that collapsed along the back of the parking lot.
